New York, April 7.

The Tribune's Washington special says Alexander H. Stephens continues to receive many calls from those who have been admirers of his course for the last five years, and those holding high positions, who are now disposed to make a hero of him. He has become very much disbestrened as to an early admission into the Senate, and says he shall go back on Wednesday. He has not the slightest doubt but that he will yet have a sent given him in the Senate. He estimates the coming cotton crop of the South at three million bales.

It is generally expected that the President will in a few days release Jeff. Davis and Clement C. Clay on parole. There is no probability of their ever being tried for their alleged participation in the conaptracy by which the President was murdered. It is not at all unlikely that Cougress will again cail for the testimony that has so far been kept secret, and its existence known to but a few persons. Judge flot has expressed his opinion in writing that known to but a few persons. Judge Hothas expressed his opinion in writing that it was enough to convict them, and no one is more surprised at their not being tried than Judge Advocate Hoit.
